About Me

Eager to contribute to the growth of the organization while advancing my professional development through innovative and impactful contributions. With 5+ years of total experience, including 3 years of relevant experience in software testing, I am proficient in designing and implementing robust test frameworks, executing automated test cases, and ensuring seamless integration with CI/CD pipelines. Adept at working in dynamic and challenging environments, utilizing expertise in Selenium, Java, API testing, and version control systems to drive efficiency and accuracy.

work experience

Veramasa IT Solutions Pvt Ltd   **2022 June - Present**

As a QA Engineer, I worked on two automation projects in the Energy and Insurance domains. Used TestNG framework, Page Object Model, and Data-Driven Testing with CSV/Excel. Developed and executed automation scripts to validate key functionalities. Integrated GitHub for version control and Jenkins for CI/CD test execution.

- Designed and implemented scalable, reusable automation frameworks with data-driven testing.
- Developed and executed Selenium WebDriver test scripts using Java for functional and UI testing.
- Conducted data-driven testing with valid/invalid inputs to verify application robustness.
- Maintained automated scripts for end-to-end, functional, and UI validation.
- Performed sanity, retesting, and regression testing on updated builds to ensure stability.
- Selected and executed test cases for retesting and regression to ensure coverage of impacted areas.
- Performed API testing with Postman to validate backend services.
- Conducted performance testing using Apache JMeter to assess application responsiveness and load handling.
- Tracked and managed defects using JIRA to ensure timely resolution.
- Analyzed test requirements and collaborated with stakeholders to define effective test strategies.
- Basic working knowledge of MySQL for data validation and backend testing.

Hallmark Building Moments   **2019 Aug-2022 May**

Worked on data management and reporting using Microsoft Excel and ERP tools.
Assisted in maintaining inventory records and documentation for smooth operational support.

Education

B.Tech
Malla Reddy innstitute of technology   **2015 – 2019**

Projects

Energy Sector ERP Project   **Automation Testing - Selenium With Java , GitHub , Jenkins , Jira**

Insurance Project   **Automation Testing - Selenium With Java , GitHub , Jenkins , Jira**

skill

- Selenium Java
- Manual Testing
- Postman
- GitHub
